Warrant for Town Meeting

MONDAY, MARCH 15, 1920.

WORCESTER SS.

To any Constable of the Town of Douglas in the County of Worcester,

GREETING :

In the name of the Commonwealth of Massachusetts, you are hereby directed to notify the inhabitants of the town of Douglas, qualified to vote in elections and in town affairs, to meet in the town hall, East Douglas, in said Douglas, on Monday, the fifteenth day of March next, at 5.45 o'clock in the forenoon, then and there to act on the following articles :

ARTICLE 1. To elect a moderator, a town clerk, a town treasurer, six constables, a tax collector, an agent of Devise of Moses Wallis, one highway commissioner, a tree warden, an auditor, all for the term of one year, one selectman, one assessor, one overseer of the poor, one water commissioner, two members of the school committee, one trustee of the public library, one town cemetery commissioner, all for the term of three years, and to vote Yes or No on the question "Shall licenses be granted for the sale of intoxicating liquors in this town for the ensuing year?"

ART. 2. To choose all other necessary town officers for the year ensuing.

ART. 3. To hear the reports of the town officers and outstanding committees and act thereon.

ART. 4. To raise by tax and appropriate such sums of money as may be necessary for support of poor, for schools, for debts and interest, for salary of superintendent of schools, for

maintaining street lights, for highways and bridges, for exterminating browntail and gypsy moths, for salaries of town officers, and for all other expenses of the town for the ensuing year.

ART. 5. To see what compensation the town will pay each member of the Hose Company for their services for the ensuing year.

ART. 6. To see what disposition the town will make of the dog found.

ART. 7. To see of what number the acting superintending school committee shall consist, and what their compensation shall be.

ART. 8. To see what sum the town will raise and appropriate for the relief of disabled soldiers and their families.

ART. 9. To see if the town will vote to oil the macadam roads, raise and appropriate money therefor.

ART. 10. To see what salary the town will pay its tax collector the ensuing year.

ART. 11. To see if the town will vote to build a new schoolhouse in Douglas Center, and raise and appropriate money therefor.

ART. 12. To see if the town will authorize the treasurer, with the approval of the selectmen, to borrow money from time to time in anticipation of the revenue of the financial year beginning January 1, 1920, and to issue a note or notes therefor, payable within one year, any debt or debts incurred under this vote to be paid from the revenue of said financial year.

ART. 13. To see if the town will vote to pay twenty-five dollars for the repair of town clock, so-called, to be paid from the contingent fund.

ART. 14. To see what sum of money the town will raise and appropriate for the Simon Fairfield public library.

ART. 15. To see if the town will vote the sum of one hundred and twenty-five dollars to Lambert B. Simmons Camp 123, S. of V., for defraying expenses for Memorial Day.

ART. 16. To see if the town will vote to appropriate money for railing highways.

ART. 17. To see if the town will vote to appropriate a sum of money to be used for the repair of stone roads, under supervision of the selectmen, or act or do anything in relation to the same.

ART. 18. To see if the town will vote to instruct its board of selectmen to petition the State Highway Commission under Chapter 155, of the General Acts of 1918 and to raise and appropriate the money required thereunder.

ART. 19. To see if the town will vote to raise and appropriate money for the care of Carter Square lot and the monument lot in East Douglas.

ART. 20. To see if the town will vote to authorize its treasurer to give a deed of release in its name of title to the Annie D. Tillinghast land acquired by it for taxes August 11, 1917, or take any action in relation thereto.

The polls may close at 2 o'clock.

You are directed to serve this warrant by posting attested copies thereof, at the Post Office in East Douglas, and at the Post Office in Douglas Center, ten days at least before the time of holding said meeting.

HEREOF FAIL NOT, and make due return of this warrant, with your doings thereon, to the Town Clerk at the time and place of meeting aforesaid.

Given under our hands this twenty-third day of February in the year one thousand nine hundred and twenty.

W. R. WALLIS,
W. E. SCHUSTER,
W. L. CHURCH,

Selectmen of Douglas.

Report of the Selectmen.

GILBERT W. ROWLEY,

Town Treasurer.

REPORT OF AUDITOR.

February 24, 1920.

To the Honorable Board of Selectmen, Town of Douglas, Mass.

GENTLEMEN :

I have examined the books and accounts of the Town Treasurer, Agent of Devise of Moses Wallis, Tax Collector and Overseers of Poor, for the year ending December 31, 1919, and find them to be in excellent condition, and all funds fully accounted for.

The Treasurer's cash was verified and found to be as follows :

On deposit in Massachusetts Trust Co.	\$2,955 58
On deposit in Blackstone National Bank	2,028 39
Total cash on hand December 31, 1919.....	\$4,983 97

AGENT OF DEVISE OF MOSES WALLIS.

Balance on hand January 1, 1919	\$ 4 50
Received during the year 1919 :	
Interest	\$2,018 06
Principal	400 00
	<hr/>
Total cash receipts and balance.....	\$2,422 56

All deposited in Rhode Island Hospital Trust Co.
The total of the Fund is now \$50,321 96

DOUGLAS WATER DEPARTMENT

Balance on hand January 1, 1919.....	\$ 11 70
Received during the year 1919.....	2,693 94
	<hr/>
	\$2,705 64

Payments during 1919 :

Labor	\$720 20
Power.....	997 65
Repairs	150 07
	<hr/>
	\$1,867 92

Balance on hand December 31, 1919.....	\$837 72
--	----------

The taxes are closely collected, the balance outstanding being about \$600.00.

Respectfully submitted,

WM. FRANKLIN HALL, C. P. A.,

Accountant and Auditor.

Report of the Water Commissioners.

The closing of the town accounts on Dec. 31st, in accord with the state requirements, gives scant time for the superintendent to make all collections for the last quarter of the year and also get in all the outstanding bills due from the water department to that date. On Dec. 31st of this year, there were outstanding bills of \$412.03, and bills for water service uncollected of \$339.99.

In July last, water bonds Nos. 11 and 12 were paid, and Nos. 13 and 14 will be paid the coming July. The total issue was 42 bonds of \$1000 each.

Frank E. Jones ,coal	168 00
Lamps	2 51
	\$923 42
Dec. 31 Balance on deposit	335 05
	\$1,258 47

The increased cost of each item of the running expenses of the library, the past year, reached such an amount, together with the uncertainty of the amount to be received from the dog fund—which is not known until the last of the year—prevented the purchase of new books much needed, until the final yearly balance was known. A substantial lot of new books are now ordered and will soon be on the shelves.

The increased running expenses of the library, calls for a larger town appropriation for this year, in order to have new books so much in demand by the increasing number of patrons.

The endowment funds of the library are now invested as follows:—

In Registered 4½ per cent Liberty Bonds.....	\$10,500 00
In Savings Banks	<u>2,200 00</u>

ENDOWMENT FUNDS.

Mrs. Royal Keith fund	\$200 00
James M. Fairfield fund	5,000 00
James Smith fund	6,000 00
Arthur M. Taft fund	500 00
Winsfield S. Schuster fund	1,000 00
	—————\$12,700 00
	—————

CHARLES J. BATCHELLER, Treasurer.

 Christmas vacation—Dec. 18 to Dec. 27.
 Spring vacation—March 26 to April 4.

GRADES.

Winter term—Jan. 5, 1920 to March 26, 1920, 12 weeks.
 Spring term—April 5, 1920 to June 18, 1920, 11 weeks.

Fall term—Sept. 7, 1920 to Dec. 17, 1920, 15 weeks.
 Winter term—Jan. 3, 1921 to March 25, 1921, 12 weeks.
 Spring term—April 4, 1921 to June 17, 1921, 11 weeks.

Thanksgiving recess—Nov. 25 to Nov. 29.
 Christmas vacation—Dec. 18 to Jan. 3.
 Spring vacation—March 26 to April 4.

NO SCHOOL SIGNAL.

Three blasts of the whistle at 7.45 A. M. indicate “no-school” for the morning session.

The same signal at 11.45 A. M. signifies “no school” for the afternoon session.

The “no-school” signal does not apply to the high school.

Report of the SCHOOL COMMITTEE.

The School Committee submit the following report for the year ending December 31, 1919:

Our expenditures for the year have totalled \$17,603.62 compared with \$15,552.02 for the year 1918.

We have felt it necessary to raise teachers salaries twice and expect to raise them again in January. Good teachers are scarce and getting scarcer right along. To get good teachers and hold them, we must pay good salaries. We have had a few changes. Miss Pearl Andrews, of the High School, left at the end of the school year in June. Early in the year Miss Florence Sweet replaced Mrs. Daniels, of the seventh and eighth grades of the Junior High School. Miss O'Connor, of the fourth grade, left us in November. Miss Mae Sullivan of Westport, Conn. takes the position in January, Mrs. Fairfield being in charge in the meantime. Miss Mildred Taft, of Uxbridge, has charge of music and Miss Mildred Christensen, of Worcester is our drawing teacher.

We have had a great deal of trouble keeping teachers at West Douglas, having had three or four changes in the past year. Miss Verna Sawin, of Holyoke, is the teacher in charge at present and we hope to keep her until June at least.

After considerable thought had been given to the subject, the Committee decided to open our High School in the Fall with a four year course. To do this and make the school successful, we felt obliged to secure another teacher, making a total of

three. A high school having a four year course with only two teachers, is not looked upon with favor by the State Board of Education. The cost per pupil of running our High School is so high compared with the average throughout the State that it would be prohibitive without the assistance of the State.

Of the pupils we transported to Whitinsville last year for the third and fourth years work, not one has returned to our school. For this reason we have had no fourth year class and some of the spare time of our teachers has been given to make the work of Miss Sweet, in the seventh and eighth grades, lighter. The non-return of these pupils and the fact that other families, whose interest is naturally in the town, are sending their children away for their high school education make one wonder if in insisting on having a high school we are doing the best for the children of Douglas. However, with three teachers instead of two, our high school cannot help but be improved and with the additional help given us by the State, by an act passed in July, the net cost to the town is not greater than formerly. Also we do believe that if the pupils in our high school apply themselves to the studies they have, they will not suffer any in comparison with the pupils of larger high schools, in those studies.

Domestic science in the high school has come to stay, we believe. This last year, with the very much appreciated help of the Parent-Teacher and the Alumni Associations, manual training has been taken up. Between \$150.00 and \$200.00 has been spent for tools and benches.

At South Douglas the number of pupils remains very small. It would seem as if the school should be closed and the few children transported, or the teacher should be engaged with a view to community work, in addition to her school work.

The people of Old Douglas have long wanted a new building and the Committee believe the present building with two small crowded rooms is inadequate.

We have spent very little on repairs the past year. In December we decided to put metal weather strips on the windows of the brick building at East Douglas. Only a part of the expense is included in our report as only a few windows were completed at first for approval. The remaining expense will be paid in January. The saving in fuel in heating the building will very shortly pay for the expense of putting in these weather strips.

Members of the Committee have for a long time wanted electric lights in the brick building at East Douglas but have always

been short of money for that purpose. Some years ago when a fairly successful night school was run in charge of Mr. Disney, oil lamps were used for lighting. The use of these lamps made it necessary to renovate the rooms used. Recently the Parent-Teacher Association requested the permission and support of the Committee in putting in Electric Lights. The Association reported they had a fund of \$50.00, with as much more expected. The Committee replied that funds for the purpose would be asked for at the annual Town Meeting in March. We are therefore including in the appropriations asked for, an amount sufficient to cover the expense.

We are this year asking for a very much larger appropriation than formerly because of increased teachers salaries, induced partly because of the difficulties in securing teachers and partly by an Act of the Legislature, Chapter 363, approved July 24, 1919. By this Act we expect a reimbursement from the State Treasurer of about \$6,000.00 this year because of our expenditures in 1919 and the present school year. This amount will be taken into consideration by the assessors when figuring the amount to be raised by taxation for the fiscal year 1920.

For other details of the school year we refer to the reports of the Superintendent, High School Principal and Supervisors of Music and Drawing, also to the report of the School Physician.

GILBERT W. ROWLEY,

Chairman Superintending Committee.

FRANK H. BIRD,

Superintending Committee.

REPORT OF THE Superintendent of Schools

To the School Committee of Douglas :—

I herewith submit my fifth annual report of the schools of Douglas, it being the eighteenth in the series of superintendents' reports of this district.

FINANCIAL.

Douglas received as reimbursement from the state during the past year \$3,263.00, which quite materially lessened the expenditures for the schools. In fact, the reimbursement was about one-fifth of the total amount expended. Next year in accordance with the provisions of the new law the town should receive about twice as much. Thus the actual cost of the schools will be less than this year, although a larger appropriation is asked for by the committee.

The following table shows how the cost of our schools compares with the average for the state:

EXPENDITURE FOR SCHOOLS PER PUPIL IN AVERAGE MEMBERSHIP.

1918	High.	Elementary.	All schools.	Av. for state.	Rank
All sources	\$167	\$31	\$35	\$41	312th town
Local taxation	\$147	\$28	\$28	—	288th “
1919					
All sources	\$352	\$49	\$56	—	—
Local taxation	\$271	\$32	\$47	—	—

NEW EDUCATIONAL LEGISLATION.

Besides the reimbursement act alluded to above three other important educational bills were passed by the last legislature.

The first compels pupils to complete the sixth grade of the public schools, instead of the fourth, as was formerly the case, unless they have sooner reached the age of sixteen years.

The second law obliges all towns and cities in which there are more than ten children who are mentally retarded three years, or more, to establish special classes for such children in September 1920. We may be affected by this law.

The third provides for the establishment and maintenance of continuation schools by all towns in which 200, or more, employment certificates have been issued in one year. As there were but sixty such certificates issued in Douglas during the past year the town is not required to maintain continuation schools.

THE HIGH SCHOOL.

Although the junior high school maintained last year in accordance with the advice of the state board of education was a success, many people felt that the town ought to support a regular high school with a four years' course of study, as it has done for many years, and accordingly a third teacher was engaged for the high school.

The pupils who were attending the Whitinsville high school not returning, and there being no senior class on this account, the high school assistants were able to devote some of their time to the seventh and eighth grades. This in any case would have been done by the domestic science teacher, as this work in nearly all schools covers the seventh and eighth grades as well as one, or more, years of the high school. For the same reason the principal instructs the boys of the seventh and eighth grades in manual training.

MANUAL TRAINING.

Owing to the efforts of the school committee, the parent-teacher association, and the teachers and pupils, funds have been provided for manual training equipment, and the work actually begun in one of the lower rooms of the engine house. This makes an admirable workshop, the only disadvantage being the distance from the high school building. Accommodations have been arranged for twelve boys to work at a time, the boys themselves are enthusiastic, and Mr. Holmes, the instructor, reports

that the undertaking is succeeding even beyond his expectations. As the boys become more accustomed to the use of tools greater improvement will follow.

DOMESTIC SCIENCE.

The domestic science course instituted last year is proving successful, and justifies its occupying a place in the school curriculum.

During the winter hot lunches have been prepared and served to such of the pupils of the school as are not able to go home to dinner, and this is one way in which the course has provided for a real need. The average number of pupils served has been twenty five, and on some days there have been over forty. Just enough is charged for the food to pay for the cost of the material.

TEACHERS' BOARDING PLACES.

It is becoming increasingly difficult to secure boarding places for our teachers. This is the case not only in East Douglas but in many other places. The scarcity of good boarding places has become such a problem that in some communities school committees are renting and furnishing suitable living quarters and putting them in charge of responsible matrons as homes for the teachers. This may be the best method of solving this problem in our own community.

I feel that this report would not be complete without a good word being spoken in praise of the Parent-Teacher Association, which has done so much the past year, and before, for the schools. Not only has the association been in sympathetic touch with the work of the schools, but it has also contributed generously and cheerfully towards their material needs. For this good work the thanks of the community and the school officials are due, and those of the latter are hereby cordially given.

NEW SCHOOL BUILDING AT DOUGLAS CENTER.

This has, no doubt, become a hackneyed subject in the superintendent's reports, but the need is none the less pressing. It is certainly unwise and non conducive to health to house so many children in such restricted quarters as are occupied by the two schools at Douglas Center. The two rooms there which are occupied by the pupils of eighth grades are none too large combined for the pupils of one of these schools. If a really modern building, sufficiently commodious, were erected, with the

advantages which come from competition with larger numbers of pupils, permanent teachers, special instructors in drawing and music, with proper means of transportation, parents of pupils at South and at West Douglas would probably not be averse to having their children transported to such a school.

In conclusion I wish to thank the members of the school committee for their continued and cordial support.

C. L. JUDKINS,

Report of High School Principal.

To the Supt. of Schools, Town of Douglas :—

I herewith submit my second annual report of the East Douglas High School.

During the current school year there have been three notable changes in school administration; the restoration of the 4-year high school, the hiring of a third teacher for the high school, and the introduction of manual training.

The first of these changes resulted from the unpopularity of the Junior High School experiment and the strong local sentiment against compelling boys and girls to go out of town to finish their high school education. This is highly commendable since there are so few who accept the educational advantages which their town offers, and those few could be sent to school elsewhere at a cost to the town considerably less than the cost of their instruction here at present. It is a loyal attempt of a typical New England town to maintain its dignity in the face of the adverse educational conditions confronting it. One of these conditions is probably only temporary, a result of the premium put upon the price of labor by the war. Only the ignorant can continue to discount education; time will reassert its value.

If the decrease in high school membership is due to an increasing proportion of foreigners in town, there is all the more reason why Douglas should maintain its high school. These foreigners wish to be good Americans, and they must be persuaded to send more of their children to high school. To discontinue the high school or to reduce its grade is to make a concession to threatening conditions against which there is a Nation-wide rallying at this moment of the forces that stand for Americanism. Our own State, as usual, is in the lead, and has come forward with two decisive measures to advance the cause

of education in Massachusetts: the law requiring children to complete the 6th grade before receiving employment certificates, and the increase of teachers' salaries. The Town of Douglas should not curtail the educational advantages offered to its children. The effort should be rather to stimulate more interest among pupils in the upper grades for high school work. This is the task of the teachers, and they should be aided by an organized effort on the part of the Parent-Teachers Association, working among parents to secure more good high school students. This organization, which has been so helpful in so many ways, might well adopt as its special mission for a few years, the work of influencing our foreign neighbors to send their children, many of whom are excellent students, to high school.

The restoration of the 4-year high school forced the Committee to hire three high school teachers, now required by recent State law for the 4-year high school. Since there is no Senior class this year, about half of the work of the 8th grade was taken over by the high school teachers, besides the manual training and domestic science in the 7th grade.

Miss Baker teaches domestic science in the 7th grade two periods a week of 70 minutes each, two periods of the same length in the 8th grade, and the two classes combined one period of 40 minutes. In the high school, Miss Baker teaches Freshman and Sophomore English, Chemistry, and General Science.

Miss Bartlett teaches United States History, Geography, and Arithmetic in the 8th grade, and French, Modern History, Latin, and Civics in the high school.

The principal teaches the Junior English, Bookkeeping, Typewriting, Algebra, and mechanical drawing.

Mechanical Drawing has now broadened into Manual Training, thanks to the persistent efforts of the friends of that subject. Last June the High School Alumni Association voted to give \$30 towards the purchase of manual training equipment; the Parent-Teachers Association had already voted \$50 for that purpose: the Committee then came forward with the balance needed for tools, which they bought. But there were only two work-benches, while a dozen were needed. Then, at a suggestion from the Superintendent all the teachers of the village schools united in a final effort, gave an entertainment, cleared over \$50., and soon six more work-benches were ordered. They are now set up in the room assigned for this work in the Fire Station building, and the high school boys and boys of 7th and 8th grades have all had several lessons there in tool work.

Although the attendance is so small in the high school, the few we have are indeed a faithful few. The first of the cardinal school virtues, regularity of attendance, has been exemplified in a marked manner. The average percentage of attendance through the Fall term was 97.75; for one month it was 99 per cent. There is every other indication that these boys and girls are interested, trying to live up to good high school traditions, and endeavoring to repay the efforts of a generous school administration which gives them a per capita cost of high school education probably the highest in the State.

C. W. HOLMES,

Jan. 10, 1920.

Principal.

Report of School Physician.

Mr. C. L. Judkins, Superintendent of Schools :

DEAR SIR :—

Following is report of medical inspection of school children for year 1919.

Pupils examined	379
Enlarged tonsils	154
Defective teeth.....	113
Adenoids	7
Vaccinated.....	48

I examined schoolhouses and outbuildings before the opening of school and found them in excellent sanitary condition.

The poor condition of tonsils and teeth among the pupils is particularly noticeable. The parents have been notified in regard to this and I know personally of several cases where tonsils have been removed, and teeth cared for by dentists, showing that the parents are inclined to heed the notices sent from school, and to co-operate with the teachers and school physician in caring for the physical condition of the children.

Respectfully submitted,

JOHN J. QUINN, *School Physician.*

Report of Supervisor of Music.

Mr. C. L. Judkins, Superintendent of Schools:—

MY DEAR MR. JUDKINS:

In submitting my report of the work done in music in the Douglas schools during the first five months of the school year, I wish to state that the progress of the pupils in the grades has been, on the whole, quite satisfactory.

In Douglas town, in Miss Anderson's room, the children have learned an unusually large number of rote songs, in addition to work with the chart, and some board work. In Miss Smith's room we have attempted two-part singing, discussing the new technical problems presented in the advanced work. It is difficult, because of limited time, to give the same grade of work to the pupils of four different grades, especially at this changing period, but despite this obstacle, I feel that we have done some profitable and enjoyable work together.

In East Douglas, in Grade I, besides the imitative singing of rote songs, the children have worked with the scale syllables in preparation for simple staff reading, to be taken up soon. In Grade II, more difficult rote songs have been given, staff reading from the chart introduced, and the pitch names learned. In Grades III, IV, and V, we have given special attention to drill in reading, to the new problems in time and tune, to artistic interpretation of songs, and to the production of the light head tone natural to the child voice and essential to good quality. The pupils of Grade V are singing two-part songs. Grade VI is doing successful three-part work, and is well advanced in theory.

Our music period in the high school and grammar grades is chiefly devoted to chorus singing. In all the schools, during December, we made a study of Christmas carols, ancient and modern.

We are greatly in need of new readers, and may I suggest that as soon as a change can be made, that the first three books of the "New Educational Music Course" be introduced in the grades. We are using the Junior Song and Chorus Book of this series in the grammar school.

In closing I wish to thank you, Mr. Judkins, and the teachers for the hearty co-operation in my work.

Very sincerely yours,

Feb. 3, 1920.

MILDRED E. TAFT.

Report of Instructor in Sewing.

Mr. C. L. Judkins, Supt. of Schools :—

Dear Sir:—The sewing class last summer numbered 29. The oldest member was 13, and the youngest 7, the average being about 10 years. The older class numbering 15, made aprons, pillow-cases and corset-covers; the younger class made bags of cretonne and pillow-cases. Five of this class finished the above and in addition made some princess petticoats. I wish to thank the mothers who insisted that the children do the work, and do it as directed.

An exhibition of the work was held in the school room of Grade II, Sept. 18th at 3.15 P. M.

Respectfully submitted,

Dec. 1919.

ETTA H. JOHNSON,

Report of Drawing Supervisor.

To the Supt. of Schools, Douglas, Mass.:—

Dear Sir:—The work of the early part of the year in the primary grades centered about Indian and Pilgrim sandtables, this making use of the child's easiest tool—the scissors. Later the work centered about designs applied to simple construction problems. We are now finishing free cutting of letters which we are using in poster alphabets, calendars, mottoes, etc.

The intermediate grades have had more accurate work in making paper furniture for a dolls house. This at Christmas gave place to the problem of a bird-shaped plant stick which they planned and colored. The lettering has had to be a drill for a greater degree of accuracy through attention to details, finally applied to door and store signs.

The upper grades have devoted part of their time to trees. The Christmas work was a butterfly flower-stick cut with scissors from thin wood. The work in lettering was applied in the designing and printing of "Your Flag and My Flag."

The next work is to be costume work through paper dolls and colored paper in the lower grades; and fashion plates and pictures in the upper grades.

The High School work has been posters and printing. The latter is now being used on problems in simple book-binding of paper and vellum.

I wish to take this opportunity to thank the teachers for their co-operation.

Respectfully submitted,

MILDRED E. CHRISTENSON.
